

Cannabis Control Board Advisory Committee
Lab Standards and Product Safety Subcommittee

Meeting called to order at 1:05pm. Advisory members in attendance:

- Cary Giguere
- Kim Watson

Members of the public in attendance:

- John Pinault
- Roy Rose
- Ashley Moore
- Kyle Harris

Minutes recorded by Kyle Harris.

Action items from previous meeting- what does a full suite of tests cost? Outreach to other programs found prices can be \$400-600 for full panel testing (potency/pesticides/solvents/microbials/metals/water activity/ % moisture/ foreign matter). Terpenes are optional.

Subcommittee members discussed how to keep testing from being cost prohibitive, especially for future craft license holders.

Cary gives overview of VAAF PHARM's inspection teams and how pesticide inspection happens at the farm level.

The sub committee will consider alternatives for certain tests in its draft SOPs.

Action Items: Sub Committee write up SOPs based on Hemp program, but more applicable to THC market and look to Oregon's testing standards. Cary agreed to draft and send to Kim for review. Kim will be reaching out to Robert Goldman and Shannon Swantek to see if they would be willing to speak to the subcommittee. Draft SOPs will be reviewed at next meeting.

The subcommittee members opened the floor for public comment. Members of the public in attendance contributed comments.

Meeting adjourned at 2:14pm.
