

Cannabis Control Board Exploratory Advisory Sub- Committee Meeting Minutes – October 20, 2021

Chairman Pepper calls to order meeting at 2pm. Members of the advisory sub-committee in attendance:

- Meg D'Elia
- Cary Giguere
- Nader Hashim
- Chris Walsh
- Stephanie Smith

Minutes recorded by Nellie Marvel. Chair Pepper notes that the Board has a report due on 11/1, and the exploratory subcommittee's meeting today will focus narrowly on the issues to be included in that report.

The sub-committee begins by discussing recommendations of whether product manufacturers should be permitted to produce solid concentrates with greater than 60% THC.

Following that discussion, the sub-committee moves on to discuss whether the Board should permit CBD to be converted into Delta-9 THC, and if so, how it should be regulated.

To round out the agenda, the sub-committee discusses the potential future makeup of the Marijuana for Symptom Relief Oversight Committee.

At 2:50pm, with no comment from the public, Chair Pepper adjourns the meeting.
