Subject: Public Records Request - Medical Marijuana Patient Count Data

Under the Vermont Public Records Law, §315 et seq., I am requesting an opportunity to obtain a list or electronic spreadsheet of information about Medical Marijuana Patient Data. Specific information I am looking for is:

- An Active Patient Count for each month since the program started (This would be including the number of approved patients and patients who have renewed their medical cards)
- If monthly data is not available annual reports will suffice

If there are any fees for searching or copying these records, please inform me of the cost.

The law requires a response to this request within 2 days, or within 10 days for extraordinary circumstances. If you expect a significant delay in fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records.

If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

Thank you for considering my request.

Sincerely,

Shea Sanford

Subject: Public Records Request - Medical Marijuana Patient Count Data

Hello Shea,

Attached please find an excel spreadsheet with records responsive to your January 18, 2022 request for an active patient count for each month since Vermont's medical registry program started. Not every month is included in the attached spreadsheet, but the attachment contains all the data that the medical registry has maintained.

Respectfully,

David
