Subject: Records Request

Hello Mr. Warren,

On April 7, 2022, you requested "a list of current cultivation, processing and retail licenses in VT."

The Cannabis Control Board has no records responsive to your request because the Board has not yet issued any licenses. In accordance with Section 8 [of Act 164 \(2020\)](#), the Board is not permitted to issue any licenses until May 1, 2022. After May 1, the Board is permitted to issue licenses on a rolling basis in accordance with the schedule laid out in Section 8.

Respectfully,

David Scherr

General Counsel, Vermont Cannabis Control Board

Subject: Re: Records Request

Thanks for your reply, David. I'm a little confused. How do Grassroots VT and CeresMED operate? Are their licences not issued by the CCB?

Appreciate your clarification and thank you for your time,

Allister Warren

Hello Mr. Warren,

Grassroots VT and CeresMED are medical dispensaries. Medical dispensaries do not operate under a cultivation, processing, or retail license, but instead under a separate dispensary license.

Under Vermont's regulatory scheme, cultivation, processing, and retail licenses are reserved for adult-use recreational operations. Medical dispensaries may only sell to registered patients and their caregivers, not to the general public. For that reason, the dispensary license is different than the adult use licenses. Medical dispensaries are permitted to operate currently, and adult use cannabis businesses are not.

The medical dispensaries do have the option of obtaining a special license type, called an integrated license, that will allow them to sell into the adult use market as well as the medical market. The Board is not permitted to issue those licenses until May 1, 2022.

Best,

David

Many thanks. Would you provide me with a list of medical dispensary license holders then please?

Thank you,

Allister Warren
