Please describe the records you are requesting and provide as much specificity as possible, including applicable date ranges.

Good Afternoon,

My name is Rachel Sinclair, and I am a Research Fellow within the Cannabis Strategy Unit at the Centers for Disease Control and Prevention. My research focus is on medical cannabis, including understanding the reasons why people use medical cannabis nationwide. We are currently continuing our data collection for this project, specifically looking at data from 2022. However, I am unable to access medical cannabis data at the Vermont state website for 2021 & 2022. I am looking for a de-identified data registry that includes 2021 and 2022 number of patients with each qualifying condition (e.g., chronic pain), the number of medical practitioners approved to certify patients, and any demographic information that might be available (age, sex, ethnicity).

Dear Ms. Sinclair,

Regrettably, we are unable to create an automated report bounded by calendar year for 2021 and 2022. With your deadline in mind, I have located the most recent manually-compiled report of medical program data, which you will find attached. This offers a snapshot current at the report's publication on March 23, 2023. I realize this does not fit the parameters we hoped to use, but I hope it is of some use.

Please don't hesitate to call if you have questions.

Thanks,

Gabe

Gabriel M. Gilman
