		Clones	Flower/ Standard Pre Rolls	Infused Pre Rolls with Solvent Extracted Concentrates	Concentrates/ Vapes with Solvent Extracted Concentrates	Infused Pre Rolls with Mechanically Extracted Concentrates	Concentrates/Vape with Mechanically Extracted Concentrates	Edibles/Topicals with Solvent Extracted Concentrates	Edibles/Topicals with Mechanically Extracted Concentrates
Comingled Pesticide Test	Plant/ Flower			Underlying flower		Underlying flower	Underlying flower		Underlying flower
Lot Specific Pathogen Test	Flower						*		
Lot Specific Water Activity	Flower								
Lot Specific Potency Test	Flower								
Lot Specific Potency Test	Concentrate								
Lot Specific Pathogon Test	Concentrate			Underlying flower		If not provided for finished product			Underlying concentrate
Lot Specific Heavy Metal Test**	Concentrate			**	**			**	
Lot Specific Pesticide Test	Concentrate			Underlying concentrate	Underlying concentrate			Underlying concentrate	
Lot Specific Residual Solvents Test	Concentrate			Underlying concentrate					
Lot Specific Terpene Test	Concentrate		for flower if on label	Underlying concentrate		If concentrate is decarbed or if on label		If added to label or finished product	If added to label or finished product
Lot Specific Potency Test	Finished Consumable								
Lot Specific Potency Consistency Test	Finished Consumable							Tinctures are exempt	Tinctures are exempt
Lot Specific Pathogen Test	Finished Consumable			If not provided for both inputs		If not provided for both inputs			

*If Mechanically Extracted Concentrate is produced in the same facility, only pathogen test needed on final concentrate

**Heavy metal testing for underlying concentrate is acceptable
